

## CLEANROOM

Another successful commissioning of a new cleanroom facility at a large pharmaceutical client, built by the **Meptagon management division**. The scope of work included preparing feasibility studies through to a validated cleanroom facility with following activities:

- Architectural
- Civil engineering
- Cleanrooms with glass partitions
- HVAC
- Power and light distribution
- Instrumentation and Controls
- Building Management System (BMS)
- Process utility distribution for liquids and gases

Meptagon received an award for outstanding contribution by completing the above facility in record time, considering the tight project schedule.

**Industries:** Microelectronics, Pharma, Bio-Pharma etc.

**Satisfied Clients:**  
Big Pharmaceutical Client.
