

Who We Are

With over 60 years of experience, Meptagon is a global leader in engineering and manufacturing. We specialize in delivering complex, tailor-made solutions for clients worldwide, ensuring precision, durability under demanding conditions, and compliance with ISO and CE standards. From concept to delivery, our team provides full in-house management of the product lifecycle.

Product Examples:

SPECIALTY GAS CONTROL BOX

for a semiconductor process
tool manufacturer

Top view (internal)

Front view

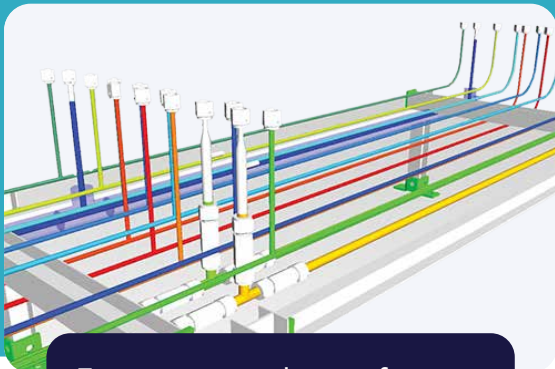

High purity and low
purity application

GAS CONTROL PANELS

for semiconductor
manufacturing facility

HIGH PURITY GAS MANIFOLDS

for a semiconductor

For process tool manufacturer

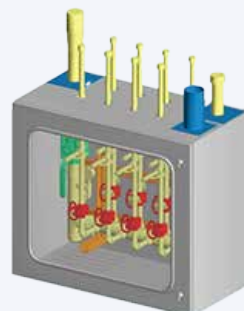

Installation for process tool

NG VALVE MANIFOLD BOX

for gas distribution systems

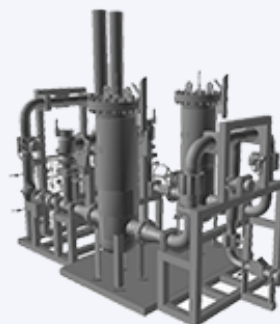

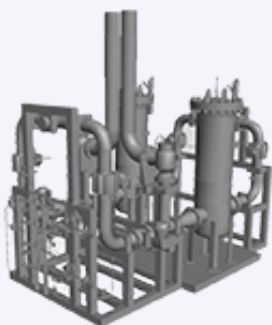

CONTROLLED CHEMICAL VALVE MANIFOLD BOXES

for chemical distribution systems

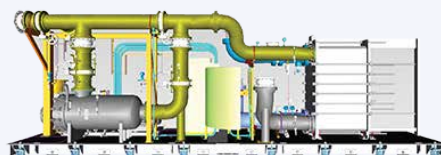

UN2 FILTER AND CONTROL SUPPORT GAS SKID

for Air separation facilities

SKIDS

for factory PCW (process cooling
water) distribution systems

We Offer

Advanced engineering, project management, and manufacturing solutions tailored to meet the needs of industries such as semiconductors, pharmaceuticals, food and beverage, defense, and microelectronics. Our solutions include the design and production of high-precision equipment and components, ensuring top-quality performance and compliance with international standards.

Why Us?

ISO-certified excellence and CE marking when required.

Complete in-house capabilities, covering the entire product life cycle.

Uncompromising quality paired with high environmental, health, and safety standards.

Proven global reach in markets including the USA, Europe, the Middle East, and India.

Rapid project turnaround and seamless client collaboration at every stage.

Whether you need a single custom product or scalable mass-production solutions, Meptagon is your trusted partner for innovative and reliable solutions.
