BEYOND TECHNOLOGY

Every face accounted for

AI-powered Facial Recognition

Accurate, Fast, Private

An advanced facial recognition system powered by AI. Instead of simple image matching, the system creates a unique digital facial signature in real time, continuously learning and improving - while strictly preserving user privacy.

Key Features

- **Recognition under extreme conditions**
- **Operate in large crowds**
- **Liveness detection**
- **Leverages existing video infrastructure**
- **Privacy by Design**
  No image storage
- **Real-time anomaly detection**

System Applications

- **Staff & vendors access management**
- **Sensitive facility security**
- **Open-spaces facial recognition**
- **Remote identity verification for IT systems**
