meptagon
BEYOND TECHNOLOGY

Command & Control Systems

Unified. Modular. Process-Based.

Why Now?

Multiple standalone systems (video / access control / operations / BMS)

The need for a unified real-time picture and a single operational language

Growing demand for investigation, and insight generation as part of policy

Capabilities

- Integrated Situational Awareness
- Event Management and Documentation
- Investigation and Reporting
- Integrations and Adaptation to Customer Systems

What We Deliver

- ✔ **True engineering integration**: from design to live operation from design to live system
- ✔ **Modular approach**: tailoring the exact solution to the customer
- ✔ **Structured process**: acceptance testing, training, drills, and agreed success metrics

See a unified situational overview across your organization
